

ARMA Guest Speaker Lunch and Learn – SPRING 2013

ARMA CSM Student Chapter would like to invite you to the presentation by Chad Hartman on Wednesday, March 20 2013 from 12:00 pm to 1 pm in Marquez Hall MZ 108. Hope you will be able to join us.

An Overview of Unconventional Resources

By Chad Hartman, Weatherford

SPEAKER'S BIO: Chad Hartman received his bachelor of science in chemistry (1995) from Fort Lewis College in Durango, Colorado. He is the chief Technical Advisor for Weatherford Laboratories based in Golden, Colorado. Since joining Weatherford Laboratories eleven years ago he has been involved in the research, development and integration of multiple technical disciplines to improve industry understanding of unconventional gas reservoirs. He has authored, coauthored and presented numerous innovative technologies and theories to the industry around the world. Mr. Hartman is acknowledged as an industry expert in unconventional reservoirs and integrating formation evaluation data. His credentials include design and development of Weatherford Laboratories state -of-the-art Adsorption Isotherm Laboratory, field and laboratory protocols, data QC/QA methods, strategic project development, project deployment and logistics, engineering and petrophysical consultation and team management. He currently supports Weatherford Laboratories' global business development, product research and development, data interpretation, and client consultation services.

Where: Marquez Hall – MZ 108

When: Wednesday, March 20, 2013
